Living in the Spirit of God:

Dedicated medical services and essential services

So many exemplary companions, even though fearful, have reacted by giving their lives. This is the force of the Spirit poured out and fashioned in courageous and generous self-denial. Our lives are sustained by ordinary people, who without any doubt are in these very days writing the decisive events of our time, people who have understood that no one reaches salvation by themselves.

Friends,

May our parish community become a chorus of intercession on behalf of all medical personnel and other first responders whose health and lives appear to be increasingly at risk. Many of our own parishioners are anxious for the members of their family in these professions.
